Water Shutdown Notice

Dear Residents;

This letter is to inform you that we will be performing water main replacement work in your area and in order to facilitate construction, the water service to your property will be temporary affected. During this time, you will be without water.

We will be performing a water main shut down at the following time:

April 11, 2026

Between the hours of 07:00am and 07:00pm

We recommend that once the water is turned back on that you flush your line by running COLD water only for approximately 15 to 20 minutes. This should resolve any clarity issues in your water.

If you have any questions or concerns throughout the construction and road closure, you can contact Don Wood with Bullin at 587-340-6330.

Thank you for your cooperation during the above improvements.
